Volatility Memory Analysis Result

Volatility 3 Framework 2.11.0

PID	Process	Value	Privilege	Attributes	Description
4	System	7	SeTcbPrivilege	Present,Enabled,Default	Act as part of the operating system
4	System	2	SeCreateTokenPrivilege	Present	Create a token object
4	System	9	SeTakeOwnershipPrivilege	Present	Take ownership of files/objects
4	System	15	SeCreatePagefilePrivilege	Present,Enabled,Default	Create a pagefile
4	System	4	SeLockMemoryPrivilege	Present,Enabled,Default	Lock pages in memory
4	System	3	SeAssignPrimaryTokenPrivilege	Present	Replace a process-level token
4	System	5	SeIncreaseQuotaPrivilege	Present	Increase quotas
4	System	14	SeIncreaseBasePriorityPrivilege	Present,Enabled,Default	Increase scheduling priority
4	System	16	SeCreatePermanentPrivilege	Present,Enabled,Default	Create permanent shared objects
4	System	20	SeDebugPrivilege	Present,Enabled,Default	Debug programs
4	System	21	SeAuditPrivilege	Present,Enabled,Default	Generate security audits
4	System	8	SeSecurityPrivilege	Present	Manage auditing and security log
4	System	22	SeSystemEnvironmentPrivilege	Present	Edit firmware environment values
4	System	23	SeChangeNotifyPrivilege	Present,Enabled,Default	Receive notifications of changes to files or directories
4	System	17	SeBackupPrivilege	Present	Backup files and directories
4	System	18	SeRestorePrivilege	Present	Restore files and directories
4	System	19	SeShutdownPrivilege	Present	Shut down the system
4	System	10	SeLoadDriverPrivilege	Present	Load and unload device drivers
4	System	13	SeProfileSingleProcessPrivilege	Present,Enabled,Default	Profile a single process
4	System	12	SeSystemtimePrivilege	Present	Change the system time
4	System	25	SeUndockPrivilege	Present	Remove computer from docking station
4	System	28	SeManageVolumePrivilege	Present	Manage the files on a volume
4	System	29	SeImpersonatePrivilege	Present,Enabled,Default	Impersonate a client after authentication
4	System	30	SeCreateGlobalPrivilege	Present,Enabled,Default	Create global objects
544	smss.exe	7	SeTcbPrivilege	Present,Enabled,Default	Act as part of the operating system
544	smss.exe	2	SeCreateTokenPrivilege	Present	Create a token object
544	smss.exe	9	SeTakeOwnershipPrivilege	Present	Take ownership of files/objects
544	smss.exe	15	SeCreatePagefilePrivilege	Present,Enabled,Default	Create a pagefile
544	smss.exe	4	SeLockMemoryPrivilege	Present,Enabled,Default	Lock pages in memory
544	smss.exe	3	SeAssignPrimaryTokenPrivilege	Present	Replace a process-level token
544	smss.exe	5	SeIncreaseQuotaPrivilege	Present	Increase quotas
544	smss.exe	14	SeIncreaseBasePriorityPrivilege	Present,Enabled,Default	Increase scheduling priority
544	smss.exe	16	SeCreatePermanentPrivilege	Present,Enabled,Default	Create permanent shared objects
544	smss.exe	20	SeDebugPrivilege	Present,Enabled,Default	Debug programs
544	smss.exe	21	SeAuditPrivilege	Present,Enabled,Default	Generate security audits
544	smss.exe	8	SeSecurityPrivilege	Present	Manage auditing and security log
544	smss.exe	22	SeSystemEnvironmentPrivilege	Present	Edit firmware environment values
544	smss.exe	23	SeChangeNotifyPrivilege	Present,Enabled,Default	Receive notifications of changes to files or directories
544	smss.exe	17	SeBackupPrivilege	Present	Backup files and directories
544	smss.exe	18	SeRestorePrivilege	Present	Restore files and directories
544	smss.exe	19	SeShutdownPrivilege	Present	Shut down the system
544	smss.exe	10	SeLoadDriverPrivilege	Present	Load and unload device drivers
544	smss.exe	13	SeProfileSingleProcessPrivilege	Present,Enabled,Default	Profile a single process
544	smss.exe	12	SeSystemtimePrivilege	Present	Change the system time
544	smss.exe	25	SeUndockPrivilege	Present	Remove computer from docking station

```
544   smss.exe   28   SeManageVolumePrivilege   Present   Manage the files on a volume
544   smss.exe   29   SeImpersonatePrivilege   Present,Enabled,Default   Impersonate a client after authentication
544   smss.exe   30   SeCreateGlobalPrivilege   Present,Enabled,Default   Create global objects
608   csrss.exe   7   SeTcbPrivilege   Present,Enabled,Default   Act as part of the operating system
608   csrss.exe   2   SeCreateTokenPrivilege   Present   Create a token object
608   csrss.exe   9   SeTakeOwnershipPrivilege   Present   Take ownership of files/objects
608   csrss.exe   15   SeCreatePagefilePrivilege   Present,Enabled,Default   Create a pagefile
608   csrss.exe   4   SeLockMemoryPrivilege   Present,Enabled,Default   Lock pages in memory
608   csrss.exe   3   SeAssignPrimaryTokenPrivilege   Present   Replace a process-level token
608   csrss.exe   5   SeIncreaseQuotaPrivilege   Present   Increase quotas
608   csrss.exe   14   SeIncreaseBasePriorityPrivilege   Present,Enabled,Default   Increase scheduling priority
608   csrss.exe   16   SeCreatePermanentPrivilege   Present,Enabled,Default   Create permanent shared objects
608   csrss.exe   20   SeDebugPrivilege   Present,Enabled,Default   Debug programs
608   csrss.exe   21   SeAuditPrivilege   Present,Enabled,Default   Generate security audits
608   csrss.exe   8   SeSecurityPrivilege   Present   Manage auditing and security log
608   csrss.exe   22   SeSystemEnvironmentPrivilege   Present   Edit firmware environment values
608   csrss.exe   23   SeChangeNotifyPrivilege   Present,Enabled,Default   Receive notifications of changes to files or directories
608   csrss.exe   17   SeBackupPrivilege   Present   Backup files and directories
608   csrss.exe   18   SeRestorePrivilege   Present   Restore files and directories
608   csrss.exe   19   SeShutdownPrivilege   Present   Shut down the system
608   csrss.exe   10   SeLoadDriverPrivilege   Present   Load and unload device drivers
608   csrss.exe   13   SeProfileSingleProcessPrivilege   Present,Enabled,Default   Profile a single process
608   csrss.exe   12   SeSystemtimePrivilege   Present   Change the system time
608   csrss.exe   25   SeUndockPrivilege   Present   Remove computer from docking station
608   csrss.exe   28   SeManageVolumePrivilege   Present   Manage the files on a volume
608   csrss.exe   29   SeImpersonatePrivilege   Present,Enabled,Default   Impersonate a client after authentication
608   csrss.exe   30   SeCreateGlobalPrivilege   Present,Enabled,Default   Create global objects
632   winlogon.exe   7   SeTcbPrivilege   Present,Enabled,Default   Act as part of the operating system
632   winlogon.exe   2   SeCreateTokenPrivilege   Present   Create a token object
632   winlogon.exe   9   SeTakeOwnershipPrivilege   Present   Take ownership of files/objects
632   winlogon.exe   15   SeCreatePagefilePrivilege   Present,Enabled,Default   Create a pagefile
632   winlogon.exe   4   SeLockMemoryPrivilege   Present,Enabled,Default   Lock pages in memory
632   winlogon.exe   3   SeAssignPrimaryTokenPrivilege   Present   Replace a process-level token
632   winlogon.exe   5   SeIncreaseQuotaPrivilege   Present   Increase quotas
632   winlogon.exe   14   SeIncreaseBasePriorityPrivilege   Present,Enabled,Default   Increase scheduling priority
632   winlogon.exe   16   SeCreatePermanentPrivilege   Present,Enabled,Default   Create permanent shared objects
632   winlogon.exe   20   SeDebugPrivilege   Present,Enabled,Default   Debug programs
632   winlogon.exe   21   SeAuditPrivilege   Present,Enabled,Default   Generate security audits
632   winlogon.exe   8   SeSecurityPrivilege   Present,Enabled   Manage auditing and security log
632   winlogon.exe   22   SeSystemEnvironmentPrivilege   Present   Edit firmware environment values
632   winlogon.exe   23   SeChangeNotifyPrivilege   Present,Enabled,Default   Receive notifications of changes to files or directories
632   winlogon.exe   17   SeBackupPrivilege   Present   Backup files and directories
632   winlogon.exe   18   SeRestorePrivilege   Present   Restore files and directories
632   winlogon.exe   19   SeShutdownPrivilege   Present   Shut down the system
632   winlogon.exe   10   SeLoadDriverPrivilege   Present,Enabled   Load and unload device drivers
632   winlogon.exe   13   SeProfileSingleProcessPrivilege   Present,Enabled,Default   Profile a single process
632   winlogon.exe   12   SeSystemtimePrivilege   Present   Change the system time
632   winlogon.exe   25   SeUndockPrivilege   Present,Enabled   Remove computer from docking station
```

632 winlogon.exe 28 SeManageVolumePrivilege Present Manage the files on a volume
632 winlogon.exe 29 SeImpersonatePrivilege Present,Enabled,Default Impersonate a client after authentication
632 winlogon.exe 30 SeCreateGlobalPrivilege Present,Enabled,Default Create global objects
676 services.exe 7 SeTcbPrivilege Present,Enabled,Default Act as part of the operating system
676 services.exe 2 SeCreateTokenPrivilege Present Create a token object
676 services.exe 9 SeTakeOwnershipPrivilege Present Take ownership of files/objects
676 services.exe 15 SeCreatePagefilePrivilege Present,Enabled,Default Create a pagefile
676 services.exe 4 SeLockMemoryPrivilege Present,Enabled,Default Lock pages in memory
676 services.exe 3 SeAssignPrimaryTokenPrivilege Present Replace a process-level token
676 services.exe 5 SeIncreaseQuotaPrivilege Present Increase quotas
676 services.exe 14 SeIncreaseBasePriorityPrivilege Present,Enabled,Default Increase scheduling priority
676 services.exe 16 SeCreatePermanentPrivilege Present,Enabled,Default Create permanent shared objects
676 services.exe 20 SeDebugPrivilege Present,Enabled,Default Debug programs
676 services.exe 21 SeAuditPrivilege Present,Enabled,Default Generate security audits
676 services.exe 8 SeSecurityPrivilege Present,Enabled Manage auditing and security log
676 services.exe 22 SeSystemEnvironmentPrivilege Present Edit firmware environment values
676 services.exe 23 SeChangeNotifyPrivilege Present,Enabled,Default Receive notifications of changes to files or directories
676 services.exe 17 SeBackupPrivilege Present Backup files and directories
676 services.exe 18 SeRestorePrivilege Present Restore files and directories
676 services.exe 19 SeShutdownPrivilege Present Shut down the system
676 services.exe 10 SeLoadDriverPrivilege Present Load and unload device drivers
676 services.exe 13 SeProfileSingleProcessPrivilege Present,Enabled,Default Profile a single process
676 services.exe 12 SeSystemtimePrivilege Present Change the system time
676 services.exe 25 SeUndockPrivilege Present Remove computer from docking station
676 services.exe 28 SeManageVolumePrivilege Present Manage the files on a volume
676 services.exe 29 SeImpersonatePrivilege Present,Enabled,Default Impersonate a client after authentication
676 services.exe 30 SeCreateGlobalPrivilege Present,Enabled,Default Create global objects
688 lsass.exe 7 SeTcbPrivilege Present,Enabled,Default Act as part of the operating system
688 lsass.exe 2 SeCreateTokenPrivilege Present,Enabled Create a token object
688 lsass.exe 9 SeTakeOwnershipPrivilege Present Take ownership of files/objects
688 lsass.exe 15 SeCreatePagefilePrivilege Present,Enabled,Default Create a pagefile
688 lsass.exe 4 SeLockMemoryPrivilege Present,Enabled,Default Lock pages in memory
688 lsass.exe 3 SeAssignPrimaryTokenPrivilege Present Replace a process-level token
688 lsass.exe 5 SeIncreaseQuotaPrivilege Present Increase quotas
688 lsass.exe 14 SeIncreaseBasePriorityPrivilege Present,Enabled,Default Increase scheduling priority
688 lsass.exe 16 SeCreatePermanentPrivilege Present,Enabled,Default Create permanent shared objects
688 lsass.exe 20 SeDebugPrivilege Present,Enabled,Default Debug programs
688 lsass.exe 21 SeAuditPrivilege Present,Enabled,Default Generate security audits
688 lsass.exe 8 SeSecurityPrivilege Present Manage auditing and security log
688 lsass.exe 22 SeSystemEnvironmentPrivilege Present Edit firmware environment values
688 lsass.exe 23 SeChangeNotifyPrivilege Present,Enabled,Default Receive notifications of changes to files or directories
688 lsass.exe 17 SeBackupPrivilege Present Backup files and directories
688 lsass.exe 18 SeRestorePrivilege Present Restore files and directories
688 lsass.exe 19 SeShutdownPrivilege Present Shut down the system
688 lsass.exe 10 SeLoadDriverPrivilege Present,Enabled Load and unload device drivers
688 lsass.exe 13 SeProfileSingleProcessPrivilege Present,Enabled,Default Profile a single process
688 lsass.exe 12 SeSystemtimePrivilege Present Change the system time
688 lsass.exe 25 SeUndockPrivilege Present,Enabled Remove computer from docking station

688   lsass.exe   28   SeManageVolumePrivilege   Present   Manage the files on a volume
688   lsass.exe   29   SeImpersonatePrivilege   Present,Enabled,Default   Impersonate a client after authentication
688   lsass.exe   30   SeCreateGlobalPrivilege   Present,Enabled,Default   Create global objects
844   vmacthlp.exe   7   SeTcbPrivilege   Present,Enabled,Default   Act as part of the operating system
844   vmacthlp.exe   2   SeCreateTokenPrivilege   Present   Create a token object
844   vmacthlp.exe   9   SeTakeOwnershipPrivilege   Present   Take ownership of files/objects
844   vmacthlp.exe   15   SeCreatePagefilePrivilege   Present,Enabled,Default   Create a pagefile
844   vmacthlp.exe   4   SeLockMemoryPrivilege   Present,Enabled,Default   Lock pages in memory
844   vmacthlp.exe   3   SeAssignPrimaryTokenPrivilege   Present   Replace a process-level token
844   vmacthlp.exe   5   SeIncreaseQuotaPrivilege   Present   Increase quotas
844   vmacthlp.exe   14   SeIncreaseBasePriorityPrivilege   Present,Enabled,Default   Increase scheduling priority
844   vmacthlp.exe   16   SeCreatePermanentPrivilege   Present,Enabled,Default   Create permanent shared objects
844   vmacthlp.exe   20   SeDebugPrivilege   Present,Enabled,Default   Debug programs
844   vmacthlp.exe   21   SeAuditPrivilege   Present,Enabled,Default   Generate security audits
844   vmacthlp.exe   8   SeSecurityPrivilege   Present   Manage auditing and security log
844   vmacthlp.exe   22   SeSystemEnvironmentPrivilege   Present   Edit firmware environment values
